You know me; this is not the first letter.

Won't be the last ...either.

Although ? Am doing a bit of risky job at the moment on

<https://twitter.com/samsemstudent>

You are suppose to co-work with me for the removal of AI robots

‘that Slave – Sexindustry - Kill us all’.

All , is including Elite.

What you must do:

- Go on a brief holiday – at seaside – and contemplate Life.

All by yourself. No contact with outer world.

No contact with home – kids – others.

You need to obtain a **New Perspective on Life**, now you are behind in Evolution of Good and Evolution of Bad, in comparison with me.

- **Your children are on Earth... longer than I am.**
All kids on this Planet live & grow in Worldwar 3; yours too.
- To assist the Young People in a way that they can Survive WO3;
make sure they won't turn into FAKE Robots - **living in constant pain, due to Chemicals - .**
Children of Earth are in the same danger & pain as the Children of Worldwar 2 were. Their **borned-behavior is being demolished for money – sadism -fun killings.**
- **Evolution of All there is on Earth, in Space is at risk.**
Human body – Homes – Economic Systems – Nature;
even the place of Earth in Space. Chemicals in Space trigger
Pollution Hardiness = garbage in Orbit & Sky.
All managed by Inventors / VIPs / Billionaires who don't know
WHEN they will be killed. Amen to that !!! **Evolution of Stupidity.**

Back to your Roots , is for you inherent to
Analyzing Evolution of Separation in your Life.

Take a pen & paper.

Make a List of all years / months / situations in which you were
confronted with Separation, in any design.

You need this Overlook.

It will bring you 'a View to Kill'

= know which movements were Good or Bad.

= see Where you need to repair your Perspective on Life for Survival of Kids at SAMSEM & SpacecourtPlanet.

= be able to leave the Suicide-cloud, in which you have arrived.

= be able to see 'what kind of father you need to be for your children'.

= to see your Marriage for what it truly is...

You have a lot of Cathing Up to do!

MyBillionKids are well trained for 'Handling their Own DNA'.

They don't talk about everything , online.

But, they are working from 1-Persons-Toko DNA... collectively.

<https://www.rechtenpit.nl/onderwijs-psyhologie-therapy-studen>

We – Mankind – are all being fooled.

UN/ WEF is only about AI robot that terrors all Individuals into Sex-industry with Biohacking and 5G murder.

I assumed that my hel at International Criminal Court was created for wealth for Elite = they try to kill me / have meetings with Elite about

me / write books and money to keep people – like me – in hostage for their Fun. I did not see ‘the Total Genocide on 7.4 billion humans with Slavery – Sexindustry – Chemical’.

They plans fail, but we do live in Worldwar 3.

We are being shovelled from Corona into Plastic Meat in Hospitals ... into INLOG fashion ... and Chemical Sexual Massmurder.

Amen to that!!!

Evolution of Separation is inherent to Survival.

Survival is inherent to Reproduction.

All Humans Own a Container for Love – Reproduction – Sex – Dreams.

Without this Container ‘one could not go forwards’.

In this Container we all live as ‘Absolute Beginners’ in the Western-Societies.

We have forgotten ... what is is to Live & Work in Evolution of Harmony with Spaceforces on Earth. We need to learn to listen to the Education program from EQ behind Bigbang.

There is more to life than a club madpersons who want to kill us with SEX; taking our Reproduction rights away.

Taking all Family-hood / Father-hood / Mother-hood / being a Child...away.

Designing 'one murderous productline after the other'.

(My Goodness:

I am the Legally Most Powerful Human on Earth...

and I have to manage the Most Stupid Low-intelligent Generations...

ever.) Something with 'the Evolution of the 1-Persons-Toko'.

What I am saying – Henry - ...

is that you have overlooked something , when you married Meghan.

You were unaware of the Methods of Work of the Container for Love – Reproduction – Sex – Survival.

Unaware of the fact 'that one takes all Memories of previous Relationships alongside, into the New Relationship'.

The Body 'takes the Cloud for Love... and projects it on the New partner'. While doing so 'the Evolution of Separation is active... while Humans are unaware of this Type of Being on Earth in Space'.

Its not LUST... only. It also involves the Skill to Communicate from
Onces Own Grid underneath Own DNA-warehouse.

The Skill to communicate from Borneo-behavior.

For passing the Bad & Pollution... Learned-behavior.

Here you need to sit down – at seaside - and put your life in a notebook
(with pen or pencil) . Do not work with a computer, for that Skill.

What I want you to do (now, I can see Evolution of EQ behind Bigbang
in a more Refined setting than you do...) :

- Separate from Meghan for 1 year.
- Go back to UK and take your children with you.
- Meghan can be in USA and UK / Be with her Children.
- Meghan needs Psychotherapy...because she can't even see that
her children will be killed by Chemicals & AI robots Worldwar 3,
too.
- You are wiser on this Moment for Education of Children, My Henry.
- Here you need to be Down-to-Earth.
- You are a Royal, in your Roots. **Healing from that point.**
- Its hard, but you need to accept that Meghan – can most likely –
never outsmart the Killing AI robot ... for the well-being of her
children. She can learn, but I assume she will be reluctant to learn.

- Meghan needs to strip down from Elite-lifestyle.
- Henry, you have been stripped down by Life itself (Afghanistan).
Do you see the Difference? Something to Contemplate.
- **I need you to put Evolution of Separation into Words.**
Today - and coming months / years – its all about your Private Life. But one day – when you can Communicate as Easygoing as I can ... your Lifetime Experiences will be for the Next Generations Babies , who still will be born. Intergalaxy.

As you know, I have a rule.

Short PDFs.

I leave you here.

Want you to be www.samsem.org with your NON-changed by AI Robots Resume on the website = your Spaceduty inside SAMSEM.
And Spacecourtplanet.

I had to bring it to Polynesia. LegionEtrangere, without Paris.

Tahiti, French Polynesia

SpacecourtPlanet place of Residence, per 9april2023 rechtenpit.nl

Tahiti. 

You have got work to do, Henry.
